OUTSOURCED ASSET MANAGEMENT

Asset Management & Optimisation

EPS has been operating water and wastewater treatment plants for over 22 years and is the largest privately owned operator of water and wastewater facilities in Ireland.

We offer design build; design, build, operate; maintenance and asset management services to a range of clients across the municipal, industrial and pharmaceutical markets. As Ireland's largest commercial operator of wastewater treatment plants, the benefits to the client are clear. We are specialists in maintenance and operation, which facilitates the targetted use of the client's own staff.

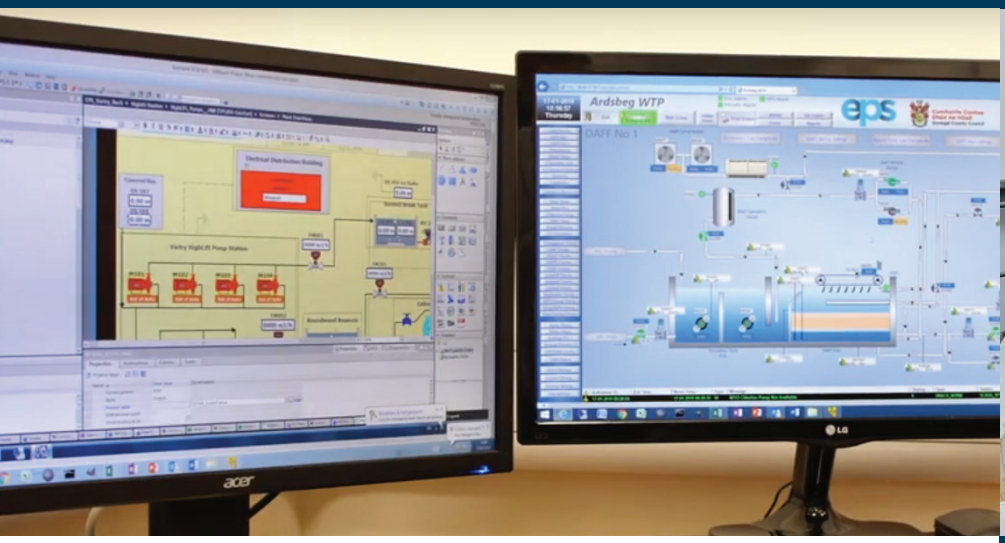
Key Facts

- Operating 150+ water treatment plants
- Operating 100+ waste-water treatment plants
- 80 pumping stations
- 110 O&M staff
- 44.6GW total power consumption
- 2GW on-site renewable annually

Rethinking Water

OUTSOURCED ASSET MANAGEMENT

Asset Management & Optimisation



Harnessing EPS' Operational Expertise

As Ireland's largest commercial operator of wastewater treatment plants, the benefits to the client are clear. We are specialists in maintenance and operation, which facilitates the targetted use of the client's own staff.

The vast majority of site maintenance is performed by our in-house craftsmen and our Service & Repair division provides 24/7/365 support. Energy optimisation is another speciality, EPS is currently in charge of 44.6GW of energy across Ireland (as of April '21).

About EPS

EPS Group is a specialist wet infrastructure group of companies operating across the Republic of Ireland and the UK. It is one of the few genuine end-to end service providers in the global water sector.
